REGRETS Santa Barbara is an interactive archive, public artwork, and study regarding the human capacity for regret

Mobile units roaming public space in Santa Barbara collect and display anonymous regrets from the public to comprise a sociological database of time- & site-specific sentiment in the community. Part of OFF-AXIS 2008, REGRETS Santa Barbara is a temporary public art installation and a study of communally shared but typically private recollections. REGRETS will be projected from 7-9:30pm on the Courthouse wing that once housed the old County Jail.
